

MD. MEHEDI HASAN TUHIN

IT, Data & Digital Systems Professional | Dhaka, Bangladesh
+8801711476774 | mehedi.tu@gmail.com | [linkedin.com/in/tuhinitsme](https://www.linkedin.com/in/tuhinitsme)

PROFESSIONAL SUMMARY

IT, Digital Systems & Data professional with 10+ years at the International Centre for Climate Change & Development (ICCCAD), where the official designation is Coordinator, Web & IT — functioning throughout as the organisation's de facto IT & Digital Systems Lead. Experienced across IT operations and infrastructure, end-to-end digital platform ownership, data analytics and GIS, procurement and vendor management, and large-scale international event technology delivery (COP29, Global Gobeshona Conference). Oracle Cloud, Oracle APEX, and Microsoft Azure certified, with a recent MEAL Essentials certification supporting monitoring, evaluation and donor-reporting practice.

CORE COMPETENCIES

- IT Strategy, Operations & Infrastructure Management
- Digital Platform & Product Ownership (requirements, lifecycle, stakeholder coordination)
- Data Analytics, GIS & Visualization — Python, SQL, Power BI, Tableau, Jupyter, ArcGIS, Mapbox, Gephi
- Cloud Platforms — Oracle OCI, Microsoft Azure, Google Cloud, AWS, DigitalOcean
- Microsoft 365 & Google Workspace Administration
- Procurement, Vendor, Asset & Inventory Management
- IT Governance, Risk Management & Business Continuity
- MEAL-aligned Monitoring, Reporting & Donor/Ministry Coordination
- Capacity Building, Training & Team Leadership
- International Event Technology & Logistics (large conferences, COP Pavilions)

PROFESSIONAL EXPERIENCE

Coordinator, IT and Web Services (functioning as IT & Digital Systems Lead) — International Centre for Climate Change & Development (ICCCAD), Dhaka | *May 2017 – Present*

- Develop and execute IT and digitalisation strategy aligned with organisational goals, ensuring scalability, sustainability and compliance.
- Lead, mentor and supervise the IT function; oversee design, implementation and maintenance of networks, servers, cloud services, hardware and surveillance systems.
- Own core web and digital platforms end-to-end — requirements, development coordination, deployment, performance monitoring and continuous improvement.
- Manage Microsoft 365, Google Cloud and other cloud-powered productivity platforms, cloud storage and collaboration tools; uphold data security and privacy protocols.
- Serve as relationship manager for third-party suppliers; oversee procurement of IT equipment and office supplies, import logistics, and asset register/inventory audits — improving replenishment timeliness.
- Prepare and manage the IT budget, including forecasting and investment planning for technology upgrades.
- Provide training and technical support to staff; advise IT and communications teams.
- Prepare regular reports on website analytics and IT operations; assist the Proprietor/Managing Director with strategic planning and risk management.
- Contributed to the Climate Finance data layer of the Aid Information Management System (AIMS): coordinated technical teams and produced functional specifications and data mapping.
- Managed ICCCAD Pavilion operations end-to-end at the UNFCCC COP29 (Azerbaijan, 2024), serving as technical and session logistics lead across 35 sessions — live broadcasting, sound systems, and overall digital infrastructure.
- Focal point and IT Lead for the Global Gobeshona Conference (2021–present), ICCCAD's flagship annual online event; designed and managed the digital event architecture, coordinated 15–20 volunteers and 15–25 staff each year, and implemented contingency plans supporting 1,500+ participants worldwide.
- Led ICCCAD's contribution to the South Asian Resilience Hub initiative (2022–2024), representing the South Asian region: coordinated technical and digital-systems support, facilitated knowledge sharing, and ensured collaboration with international partners.
- Migrated the organisation's email platform from Zoho Workplace to Microsoft 365; created and manage 50+ e-lists/email groups connecting 1,500+ global partners.
- Grew the Gobeshona Knowledge Portal to 3,000+ publications; designed and launched 6 project/programme websites fully in-house.

- Delivered the Jolobayu Barta interactive BOT portal under tight deadlines, strengthening donor transparency and community access.
- Negotiated vendor contracts, reducing costs by 15% while ensuring compliance.
- Served as ICCCAD–IUB premises in-charge (Jul 2023 – Dec 2024), assigned directly by ICCCAD's Director: facilities, security coordination and continuity of operations.

Data Analyst (concurrent assignment via IUB, for ICCCAD) — Under the Project “Universities as Knowledge Brokers in the Governance of Climate Resilience” (IUB / London School of Economics) | Jun 2019 – Feb 2021

- Implemented the project's sociometric survey tool and contributed to stakeholder mapping.
- Analysed survey and semi-structured interview data; identified trends through complex dataset analysis.
- Applied GIS (ArcGIS, Mapbox) and social network analysis (Gephi) to generate spatial and relationship insights.
- Produced best-practice reports based on data mining, analysis and visualisation for the project team.

Web & IT Officer (concurrent assignment via IUB, for ICCCAD) — Global Gobeshona Conference 2 | Apr 2021 – Feb 2022

- Developed the conference website and supporting materials; handled conference software platforms.
- Created and managed links for meetings and seminars; uploaded conference materials.

Technical Project Coordinator — Icon Information Systems Ltd., Dhaka | May 2016 – Apr 2017

- Coordinated donor-funded a2i Innovation Fund projects (Birds of Paradise, Diarobo), including e-service automation for autism therapy centres and digital learning/health management solutions.
- Designed UI/UX, coordinated requirements, and managed project workflows; prepared technical studies and cost estimates.
- Built prototypes and wireframes; coordinated Agile sprint planning, client engagement, and stakeholder training.
- Oversaw vendor negotiations and budget tracking for hardware/software procurement.

IT Executive — Hike Limited, Dhaka | Nov 2015 – Apr 2016

- Managed IT operations across departments, ensuring efficient service delivery and SLA compliance.
- Negotiated and maintained vendor contracts for software, hardware and consulting services.
- Collaborated on ERP module development and integration; supported ERP rollout and digital asset management.
- Led R&D for AR-based digital kiosks and interactive currency machines, collaborating with international vendors.

SELECTED PLATFORMS & PROJECTS

- ICCCAD Website — icccad.net (2017–present), core organizational website
- Gobeshona Knowledge Portal — gobeshona.net (2019–present), 3,000+ publications
- Loss & Damage Forum — lossanddamageforum.org (2022–present)
- Jolobayu Barta — jbarta.icccad.net (2019), interactive BOT portal
- Global Gobeshona Conference platform — conference.gobeshona.net (2020–present)
- LUCCC, LDC Universities Consortium on Climate Change — luccc.org (2023)

ACHIEVEMENTS AT A GLANCE

- Grew Gobeshona Knowledge Portal to 3,000+ publications; built 6 in-house project/programme websites.
- Directed IT for 35 COP29 Pavilion sessions (Azerbaijan, 2024) and multiple years of Global Gobeshona Conference delivery (1,500+ participants annually).
- Migrated organisational email to Microsoft 365; scaled e-list infrastructure to 1,500+ global partner connections.
- Delivered the Jolobayu Barta BOT portal; integrated climate finance data into AIMS.
- Reduced vendor costs by 20%; improved procurement/inventory replenishment timeliness.

KEY LEADERSHIP ROLES

- COP29 Pavilion (Azerbaijan, 2024): Managed ICCCAD Pavilion operations end-to-end, serving as technical and session logistics lead. Oversaw live broadcasting, sound systems, and overall digital infrastructure for 35 sessions, ensuring seamless delivery to global audiences.
- Global Gobeshona Conference (2021–Present): Acted as focal point and IT Lead for ICCCAD's flagship annual online conference. Designed and managed the digital event architecture, coordinated 15–20 volunteers and 15–25 staff members each year, and implemented contingency plans to support 1,500+ participants worldwide.
- South Asian Resilience Hub (2022–2024): Led ICCCAD's contribution to the Resilience Hub initiative, representing the South Asian region. Coordinated technical and digital systems support, facilitated knowledge sharing, and ensured smooth collaboration with international partners.

EDUCATION

B.Sc. in Computer Science & Engineering — Daffodil International University, Dhaka | 2015

Higher Secondary Certificate (Science) — Rajshahi Model School & College | 2010

Secondary School Certificate (Science) — Seroil Govt. High School, Rajshahi | 2007

TRAINING

- Data Science: Modeling, Integration & Processing — Bangladesh HiTech Park / Divine IT Limited (2020)
- Digital Transformation with Google Cloud — Google (Oct 2025)
- EXIN's Agile Scrum Foundation Training — Global Skills Development Agency (Mar 2019)

CERTIFICATIONS

- Oracle Cloud Infrastructure Architect Associate — Oracle University, 2025 (renewed)
- Oracle APEX Cloud Developer Certified Professional — Oracle University, 2025
- Oracle Cloud Infrastructure Developer Associate (1Z0-1084-21) — Oracle University, 2021
- Oracle Cloud Infrastructure Foundations Associate (1Z0-1085-21) — Oracle University, 2021
- Microsoft Learn: Administrator Career Path — Official Collection (May 2026)
- Microsoft Learn: Introduction to Cloud Infrastructure (Aug 2026)
- MEAL Essentials Certificate — DisasterReady.org / Cornerstone OnDemand Foundation (Aug 2026)
- Registered Scrum Basics™ — Atlassian (2025)
- Improve Team Organization Using Scrum — Atlassian (2025)
- Use Scrum Events to Deliver Work in Time-Boxed Increments — Atlassian (2025)
- Programming for Everybody — University of Michigan (Coursera)

TECHNICAL SKILLS

- **Programming & Scripting:** Python, PHP, Node.js, Bash, HTML, CSS, JavaScript
- **Databases:** MySQL, Oracle 10g
- **Data Analysis & Visualization:** SQL, Power BI, Tableau, Jupyter Notebook, Gephi, ArcGIS, Mapbox, Anaconda
- **Cloud & Infrastructure:** Oracle OCI, Microsoft Azure, Google Cloud, AWS, DigitalOcean
- **Enterprise & Collaboration Tools:** Microsoft 365 Admin, SharePoint, Teams, Google Workspace, Adobe CC Suite, Jira, Asana
- **Web CMS:** WordPress, Bootstrap, jQuery
- **IT Operations:** Network Security, SLA Management, Vendor Negotiations, Hardware/Software Troubleshooting, Procurement & Import Logistics
